

## **Megan Barker**

Comp 126 Final Project

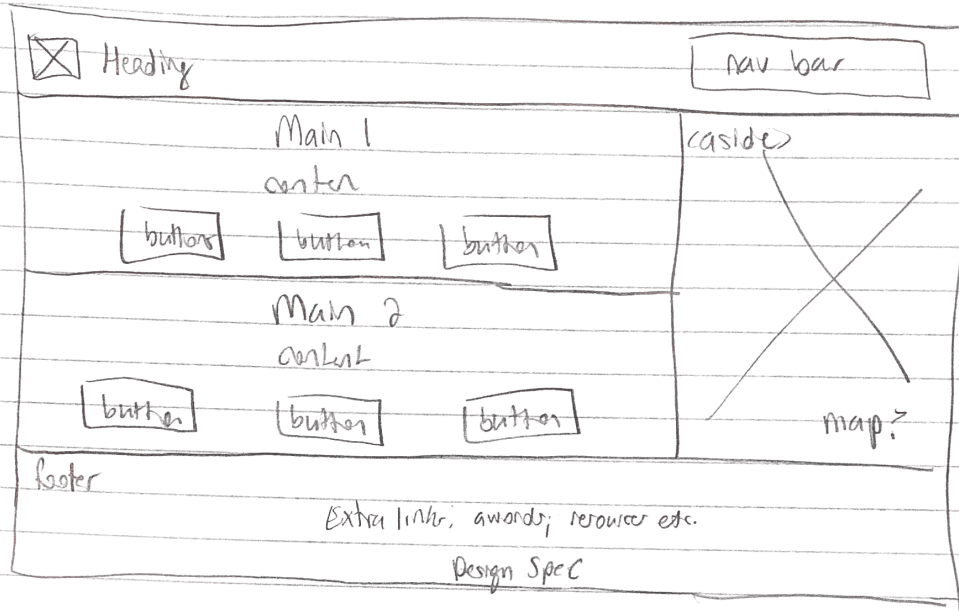

### **Summary**

For my redesign of irishshipwrecks.net, I want to make the site look more professional and modern. I also want to make the site more accessible as it is kind of hard to navigate through all the pages and see what all this site has to offer. In order to do this, I will use mostly a monochromatic color scheme, with a bright accent color to make it look more tied together and professional. I want to include a lot of blue colors and a yellow accent color in order to remind the user of water and the beach, as this site is related to diving. I will also organize all of the appropriate links on the home page through the navigation bar or buttons in order to make it easier for someone to find what they are looking for without having to click through every page. I believe this is the best approach because the site is pretty outdated, hard to use, and not very colorful.

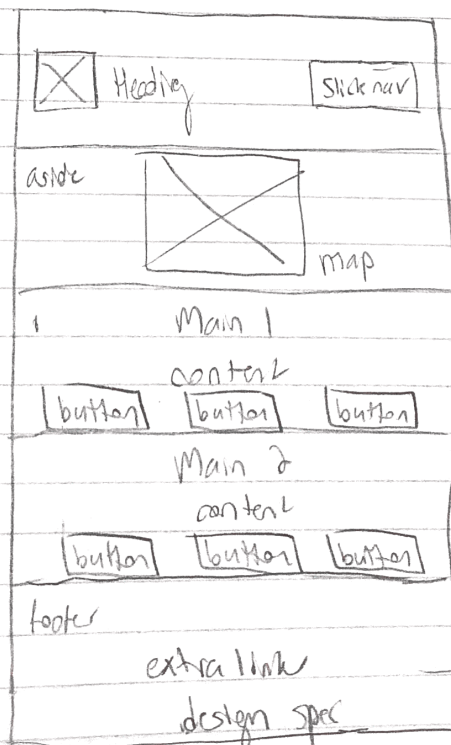

# Layout

index: Desktop View

Index:  
Mobile  
view

## Contact page : Desktop View

A hand-drawn wireframe for a desktop contact page. The layout is as follows:

- Header:** On the left, a box containing an 'X' icon and the word 'Heading'. On the right, a box labeled 'Nav bar'.
- Main Content Area:** A central box containing four stacked input fields labeled 'name', 'email', and 'Message', followed by a 'Submit' button.
- Footer:** A horizontal bar at the bottom containing the word 'Footer' on the left, 'extra link' in the center, and 'Design Specs' on the right.

## Contact Page: Mobile View

A hand-drawn wireframe for a mobile contact page. The layout is as follows:

- Header:** On the left, a box containing an 'X' icon and the word 'heading'. On the right, a box labeled 'Side nav'.
- Main Content Area:** A central box containing four stacked input fields labeled 'Name', 'email', 'Message', and 'Submit'.
- Footer:** A horizontal bar at the bottom containing the word 'Footer' on the left, 'extra link' in the center, and 'Design Spec' on the right.

## Design Palette

### Color Scheme

**#000000**

Used for text in the paragraph elements and headings in the main elements on the home page as well as the text in the navigation bar.

**#0E2E5C**

One of the dominant colors of the site, part of monochromatic scheme. It is used as the background color for the header and the footer.

**#1B5283**

Other dominant color, part of monochromatic scheme. It is used for the buttons as the font color and border color. It becomes the background color of the button when it is hovered over.

**#EAB44E**

Darker shade of the accent color. Used as the background color of the nav buttons.

**#FFC857**

Accent color. Used for the icons on the buttons of the main section when hovered over. Used for the border, text, and icon color of the footer when hovered over. Also used for focus color and submit button color for form.

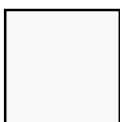

**#FFD665**

Shade of the accent color. Used in the navigation bar as the background color for the buttons when hovered over.

**#F5F5F5**

Used as font color for some headings and paragraph elements.

**#FFFFFF**

Used as the background color for the main sections, and sometimes as text color for paragraph elements.

## Font Choices

<h1> Text - Belgrano (Google Fonts)

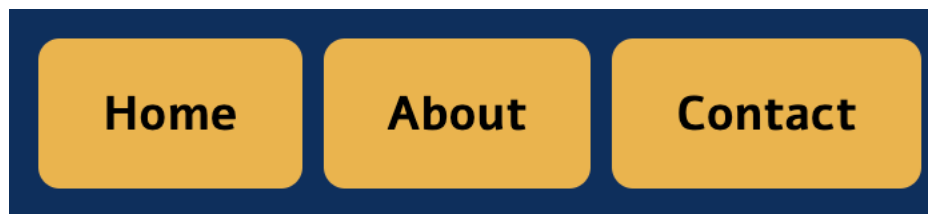

<h2> and nav bar & button <a> text - Alef (Google Fonts)

<h3> text - Merienda (Google Fonts)

<p> text and form label text - Neuton (Google Fonts)

## Buttons

Nav Bar

Main Section

Footer

## ***Actions States***

Nav Bar - hover

Main Section Button – hover

Footer Button - hover

Form – focus

Full Name

## ***Form***

Full Name

Email

Message:

Submit

## ***Borders-Buttons***

Nav Bar – rounded borders

Main buttons and footer buttons – solid colored borders
